Total Net Inflows Breakdown

€ mn

The success of the 'Freedom Account' has not been at the expense of managed assets whose inflows doubled in 2009 & continued to increase in 2010

Total Net Inflows – Banca Mediolanum of which:

- Managed assets (Life & Mutual Funds)
- 'Freedom' Life assets
- Administered assets (Banking assets)

* include €mn 858 of 3rd-party structured bonds that replace Index-linked policies & have a similar profitability

Our ability to generate positive inflows also in bear markets is explained by our **customer-oriented culture** especially embodied in two specific areas:

-  The **Investment strategy** we advocate to our customers that provides solutions according to an analysis of each customer's **needs** & is based on the concept of '**diversification**'
-  Our effective, innovative and committed **Training & Communication strategy**

Our investment strategy explains the consistency of our inflows & transfers 'technical performance' into 'customer performance'

-  We advise our customers proposing products & services that correspond to each of their **specific needs**
-  Investor needs remain fundamentally the same, they are **not influenced by market crises**
-  We do not engage in stock-picking, tactical asset allocation decisions, or market-timing
-  We recommend a series of **diversification** criteria, the most important being time horizon
-  **Equity** investments are only considered for the **long term** (>10 yrs) and are diversified across the global economy to further reduce risk
-  We strongly advise investors who have a long-term outlook to view **market crises as buying opportunities**

Designed to help customers understand
the basic principles of our investment strategy,
offsetting the negative messages
from the media & word-of-mouth

- 👤 We prepare our Family Bankers through extensive, focused and ongoing **training**
- 👤 We provide our Family Bankers & customers with effective **education-oriented communication**
(e.g. to convey the important message that in a down market a loss is incurred only if money is withdrawn from equity investments)

- 👤 Inaugurated March 2009
- 👤 Centralises our training know-how, in coordination with top universities, professors and individuals who are experts in the field
- 👤 Provides our Family Bankers & employees with a resource for life-long education
- 👤 Develops financial education programs dedicated to our customers & the community

Two proprietary state-of-the-art tools

Corporate TV Network (est. 1989)

encrypted programs dedicated to the training of our Family Bankers

- Company news
- Product information
- Online training course support
- Inspirational thoughts for personal motivation & sales techniques

Mediolanum Channel (est. 2001)

web streaming TV channel (free-to air satellite up until 2009)
aimed at educating the customer community

**2 daily specials dedicated to crisis-related topics
were added to the ongoing offer in 2008/2009**

The Mediolanum Approach vs. Open Architecture

-  'Best Brands' family of Funds of branded Funds unveiled in April 2008
-  Offers our customers the opportunity to further diversify their investments
-  **This is not the 'Open Architecture' approach**
-  It is impossible for a private investor to choose among a supermarket-like offer of thousands of funds, if not on the very risky basis of past performance
-  Products can be tailored to customer needs, objectives & risk profile
-  Synergy of the best A.M. companies' expertise & pursuit of quality and Mediolanum's capacity to select & coordinate asset managers, and give high quality advice to customers

Our Integrated & Comprehensive Retail Banking Model

Mediolanum vs. Current Bank Models

Traditional bank
(the human relationship)

On-line bank
(freedom)

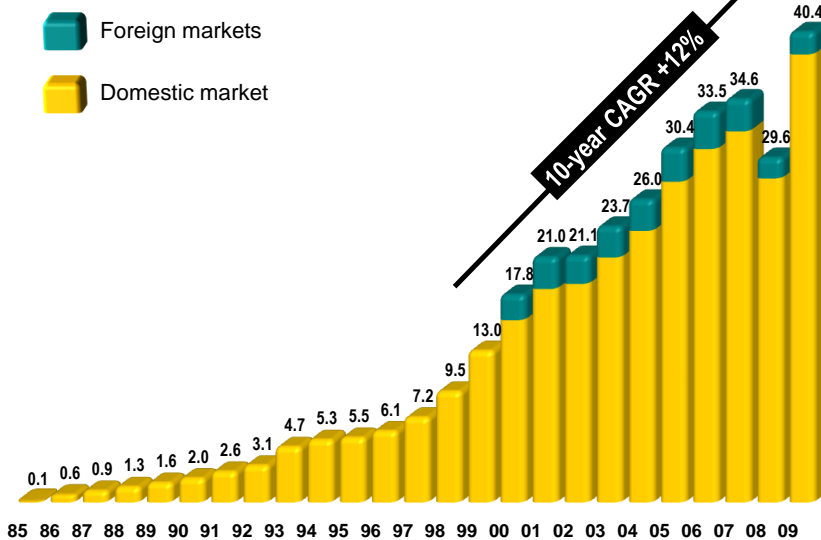

The Mediolanum model unifies the advantages of the on-line with the traditional

-  invalidating the concept of branch proximity
-> 'Freedom in Banking'
-  at the same time enhancing the 'human touch'
-> one-to-one relationship with the Family Banker™
